

REMARKS

Applicant has provisionally elected with traverse Group I drawn to claim 1-32, and cancelled non-elected claims 33 and 34 with the right of future rejoinder as to allowable subject matter in claims 1-32.

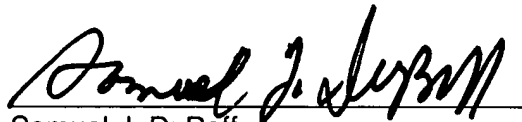

Also, obvious typographical errors have been corrected in claim 31, changing "B" to "B₂" and "Y" to "Y₂" as is evident from claim 25, from which claim 31 is dependent thereon.

As for selection of a species to represent Group I, this is compound 33 on text page 114.

Early and favorable action is respectfully requested.

Respectfully submitted,

Bristol-Myers Squibb Company
